# Our Story

## 1869

• Frederick Parker created the business that was to become Parker Knoll, aged only 24.

## 1869 – 1875

• As the business steadily grew Frederick Parker began manufacturing furniture for Victorian gentry and leading London retail companies. This growth eventually led to the purchase of larger premises at 16 Wenlock Street, London.

## Setting the standard

Frederick Parker took pride in designing and developing the finest furniture using the best of British craftsmanship. He learnt his craft from his father, a cabinet maker, and then later passed these skills on to his sons. These founding principles remain at the core of the business as Parker Knoll continue to lead the market in design, technology and innovation.

## 1875 – 1900

• As both the Parker business and the Parker family expanded, 3 of his 7 sons would later join the business as innovators and inventors in developing furniture that would be set to revolutionise the furniture industry forever.

## 1900 – 1914

• As demand continued to grow, with the help of his sons, Parker moved the business to High Wycombe. Soon after, the business was served with an order to furnish the Paddian Lounge on RMS Aquitania.

## 1921

• Parkers son's continued to develop the business and in the late 1920's they met Willi Knoll. His revolutionary ideas to modernise comfort transformed the business. The revolutionary coiled steel wire spring, developed by Willi Knoll remains unchanged in many of our occasional chairs today.

## 1930 – 1931

• Throughout the 1930's the company exhibited at the British Industries Fair, where they were frequented by royalty.  
• Frederick Parker and Sons becomes Parker Knoll.  
• Parker Knoll become the first company to advertise nationally in the UK, creating the famous man on spring advert and radical window displays.

## 1932

• Parker Knoll chairs are chosen to furnish most of the rooms and studios at the new BBC headquarters broadcasting house at Portland Place.

## 1940

• As a contribution to the war effort, Parker Knoll was involved in the manufacture of aircraft during the Second World War.

## 1950

• The development of the Parker Knoll Penshurst Chair continues with the introduction of the Willi Knoll patented 'tension suspension springs'.

## 1966

• Development of the revolutionary Parker Knoll Recliner begins with the Cornwell Norton; the first new generation recliner to hit the market in the UK.

## Success amongst the masses

Following nearly a century of success, Parker Knoll's awareness and reputation had now extended far beyond its core market. This suggested that the appreciation and desire for Parker Knoll furniture was spreading to younger and more mass market consumers.

## 1970

• Fire destroys the Parker Knoll factory but not the firm, with upholsterers starting work at a new location 3 short weeks later.  
• The innovative Statesman Chair impresses at the Annual Furniture Exhibition.

## Leading the market

Continued expansion of the Parker Knoll collection, following the merger of the Cornwell Norton brand with Parker Knoll broadened the awareness of the brand in the market. With the introduction of fully upholstered suites, rocking chairs and the Maxi Sofa along with a range of over 200 fabrics to suit 1970's style, Parker Knoll were setting the benchmark for other manufacturers to follow.

## 1971

• Parker Knoll move from High Wycombe to Chipping Norton in a complete site relocation.

## 1980 – 1991

• Parker Knoll remains the leader of the fireside chair and recliner market.

## 1996

• Parker Knoll is named The Number 1 Furniture Brand in the UK.

## 2005

• Parker Knoll becomes part of Sofa Brands International Group.

## 2008

• Parker Knoll takes up residence in Riddings, Derbyshire.

## 2012

• The Parker Knoll brand is relaunched with two new collections; Classic and LifeStyle. New showrooms located in Harrington Mills, Long Eaton are unveiled, alongside heavy investment in an extensive marketing and advertising campaign to launch the Parker Knoll brand identity.

## Expanding Retail Distribution

Following the successful relaunch of the Parker Knoll brand in 2012 and subsequent market growth, Parker Knoll begins to expand its retail distribution, increasing retail space within independent retailers and launching new collections with the major multiples in the market.

The Parker Knoll brand is now advertised nationally on television and has a growing market position.

## 2013

• For the first time in Parker Knoll history, the brand exhibits at the prestigious Salone del Mobile in Milan launching exclusive new collections to the international market.

## 2015

• Parker Knoll relaunches the Maison Collection. This new range is targeted at a younger more style driven consumer.

## 147 years of the best of British comfort

Some fabrics in the collection may only be available to order on scatter cushions, chairs and other accent pieces, please refer to the swatch books in store for further information.

## Railroaded Fabrics

Please note that railroaded fabrics are not suitable for curtains; please refer to the swatch books in store for further information.

## Choosing Leather

It is important to understand the characteristics of leather when choosing to purchase this type of sofa. Leather suites are classic and timeless; the high quality, natural and hard wearing leathers we offer look great and are really easy to care for. It is key to note that leather will move over time, may display traces of the past such as healed scars, insect bites, growth marks and veins. These are all hallmarks of hide and in no way detract from the wearing qualities of leather.

## Pattern Repeats and Widths

Please refer to the swatch books in store for further information.

## Fabric Samples

Fabric samples are available on request from our website; we endeavour to deliver within 2 working days.

## Accessories

Scatter cushions are available as chargeable extras on all models. Cushion interiors are also available with a choice of feather or fibre filling. Cushions can be made in any fabric within the Parker Knoll collection.

## Finishes and Trimmings

When used on fixed upholstery products each fabric in our collection is self-piped as standard. Other optional finishes are also available.

## Arm Caps

Specifically tailored full length arm caps are available as chargeable extras on most models. These arm caps can be made in any fabric within the Parker Knoll collection and are fully lined.

## Arm Height

The overall dimensions of the Burghley, Canterbury and Sloane Sofas and Chairs are the same. The arm height of the chair is lower than the sofa for optimum seating comfort.
